# WHO WE ARE

## PUSH FOR GOOD SKATE - MUSIC - ART

PUSH FOR GOOD is a movement to bring the skate, art & music community together to do good things for our local communities. It is a new organization established by long time skate industry couple Ulises & Toni Frallicciardi and Pro Skater and Musician Chuck Treece.

“Our hope it to engage the skateboarding community, artists, and musicians to invest back into the next generation and to use their gifts to DO GOOD THINGS for the communities they live and skate in,”, says co-founder Toni Frallicciardi.

Push for Good exists to invest in the next generation and inspire them to do good things for their local communities.

We are working to establish hubs in cities like Philly, Miami and LA with monthly meet ups and collaborative events.

Our goal is to establish venues in each of these major cities to invest in underprivileged youth on a full-time basis. Join us and get involved.
